Brief Report

Every year on March 15, the consumer movement observes World Consumer Rights Day to increase public awareness of the interests and rights of consumers worldwide. By commemorating the day, consumers have the opportunity to protest against market abuses and social injustices that jeopardise their rights and to urge that all consumers' rights be respected and protected.

President John F. Kennedy was the inspiration behind World Consumer Rights Day. On March 15, 1962, he addressed the problem of consumer rights in a special statement to the US Congress. The first world leader to do so was him. The consumer movement first observed that day in 1983, and it is now observed on that day each year to encourage participation in significant campaigns and concerns. Department of Economics was organized World Consumer Rights Day to increase public awareness of the interests and rights of consumers worldwide 15th March 2022 for humanities Faculty students of Arvindbabu Deshmukh Mahavidyalaya, Bharsingoi and all other participant from across the BA class . The students were immensely benefited from World Consumer Rights Day celebration .

The key note speaker for above guests lecture

1. Dr. Dadarao Upase
2. Mr. Kapil Shirashkar
3. Miss. Naitika Band
3. Mr. Vijay P Rahangdale

. Student get knowledge of following point

1. Every year on March 15, World Consumer Rights Day is commemorated to raise awareness of the importance of consumer empowerment and protection. The day also attempts to raise awareness of consumer rights violations caused by market activities and what more can be done to give consumers more power.

History

On March 15, 1962, then-US President John F. Kennedy addressed the issue of consumer rights in a special message to the US Congress. Kennedy was the first world leader to emphasise the significance of this issue.

The first World Consumer Rights Day was observed in 1983. It has been observed annually on March 15th since then.

Aside from World Consumer Rights Day and National Consumer Rights Day in India, the United Nations has emphasised the importance of buyer protection and empowerment. The United Nations adopted guidelines for consumer protection, redressal mechanisms, and institutions to establish consumer rights in 1985. It had also established principles to assist member states in cooperating and enforcing these rights.

Theme

'Fair Digital Finance' is the theme of World Consumer Rights Day 2022. As digital payments become more prevalent in society, the risks associated with them grow in number. This year's theme was chosen by Consumers International to highlight the need for "innovative regulatory approaches and digital financial services and products that centre on consumer protection and empowerment."

Consumer Protection in India

The concept of consumer rights is enshrined in the Indian Constitution. In December 1986, Parliament passed the Consumer Protection Act, with the goal of empowering consumers.

Under this Act, consumers have the following rights:

Consumers have the right to have their voices heard in appropriate forums.

They have the right to seek redress for unfair business practises.

They are entitled to consumer education.

Consumers have the right to shop for goods and services at reasonable prices.
