Academic session 2021-2022

Best Practices

Practice 1:-Environmental awareness through Eco-club

Goal:-To make our environment more sustainable is a need in today's situation. Youth in college should know the importance of environment and they must work for make it more sustainable. For this they must aware about the importance of environment and what effort should be taken to make it sustainable. College form Eco-club, through which different environmental awareness activities are conducted so that students get aware about the environment in which they leaving and how they can make it sustainable for themselves and others.

Objectives of the practices:

- To conduct different environment related activity on different specific days.
- To conduct guest lectures, workshops, quizzes, awareness program related environment
- To make the students aware regarding environment related problems and how to work on them.
- To develop interest in students to work on making environment sustainable.
- To aware them what are the possible hazards in future if they not care about the environment.

Context:-During the year college form Eco-club in college and it was decided that to conduct the different environment base activities on occasion of different environment related days. So during the year on different occasion through different activities such as guest lectures, workshops, quizzes, awareness program we tried to make the students aware regarding environment.

The Practice:- During the year we conduct different environment base activities through Eco-club.

- World environment day quiz
- Eco-friendly rakhi making workshop
- Seed ball preparation drive
- Workshop on making Eco-friendly Ganesha
- State level poster competition on occasion of science day
- Guest lecture on socio-economic vulnerability assesement of climate change
- Guest lecture on occasion of world earth day
- Itercolligiate quiz competition on occaassion of energy conservation day
- Workshop on making eco-friendly holi colors
- Tree plantation week
- Water for bird activity
- Workshop on making Eco-friendly diya
- Intercollegiate quiz competition on World ozone day
- World water day rally in Inderwada village and quiz competition

Evidence of Success:

- Every department successfully conducted allotted activity during the year
- All the activities having their own importance related to environment.
- Students and faculty members show their active participation in each activity
- Students get the knowledge how important to secure our environment
- Students look forward with all the knowledge they get for making the environment sustainable.

Problem Encountered

- Extra time needed to conduct such activity
- Disturbance in regular academic schedule

Limitations:

- Extra time needed so not possible to explore these activities at a large level.
- Students' participation depends on their interest

Practice 02:- Importance of competitive examination lecture series and career counselling

Goal:- As the college is in rural area students having less opportunity to explore themselves due to the lack of proper guidance, financial situation etc. Competitive examination is best opportunity for them to make their future bright. So we want to make them aware regarding importance and future in competitive examination.

Context:-In today's situation competitive examination is the best way to make the future secure and bright. Competitive examination give each and every one equal opportunity to show their strength and get benefited from that. In rural area students are not aware of this practice so it's our duty to make them aware of it. So during the year competitive examination cell run the lecture series on importance of competitive examination.

The Practice:-During the year different expert guests are invited from different areas who share the knowledge, experience and importance of competitive examinations. Following lectures are conducted during the year.

- Lecture 1 by Mr. Kiran Dange, API, Adavadi police station
- Lecture 2 by Mr. Vijay Rahangdale, Assistant professor economics ADM Bharsingi
- Lecture 3 by Bharat Madhavi convener of cell talk on career katta by Maharashtra Government
- Lecture 4 by Dr. Ravidra Kale, Associate professor, MSP Mandal college Beed
- Lecture 5 by Ankush Marathe, director of Global academy of competitive examinations.
- Lecture 6 by Mr. Ashwin Jaiswal, Assistant professor, Morris college Nagpur
- Lecture 7 by Harishchandra Gawade, PSI Jalakheda police station
- Lecture 8 by Hitesh Vaswani, Assistant professor, Nabira Mahavidyala Katol.

Evidence of Success:

- All the events are conducted successfully and students found satisfied with knowledge they received.
- Students started to work in the direction of competitive examination career.

Problem Encountered

- Many guest are conducted the lecture in online mode as they cannot afford to come to college
- Extra expenditure required to conduct such event so not possible to arrange so many activities.
- It also disturb the regular academic schedule of students

Limitations:

- Extra expenditure required to conduct such event so not possible to arrange so many activities.
