Name of Activity	Guest Lecture
Date and Time of activity	Date- 29 /09/2022 Time-11 a.m-12.30 pm
Activity organized under committee/cell	Department of Chemistry
Speaker Name	Mr. Kailash More Asst. Professor, Dept. of Chemistry, Nabira Mahavidyalaya, Katol, Dist-Nagpur
Topic	Compounds of Nitrogen
Number of students participate	49
Number of faculties participate	5
<b>Brief Report</b> The Department of Chemistry of Arvindbabu Deshmukh Mahavidyalaya, Bharsingi had arranged guest lecture on “Compounds of Nitrogen” on 29 Sept. 2022 for B.Sc final year students . The resource person was Mr. Kailas More, Asst. Professor, Dept.of Chemistry, Nabira Mahavidyalaya, Katol, Dist-Nagpur. The lecture began at 11am and concluded at 12.30 Pm. A total 49 students actively participated in the guest lecture. The speaker explains the Basics of organic compound, Classification, Methods of preparation of nitro compounds, nitro arenes and amines, Chemistry of amines, chemical bonding in nitro compound& discussed in details applications . The lecture also discussed about the possibilities and reach abilities of research and opportunities in core technical areas with authenticated explanations.	

After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. Students opined that the guest lecture has helped them to get their doubts clarified. The session concludes with the feedback from the students

### Brief Report

The Department of Chemistry of Arvindbabu Deshmukh Mahavidyalaya, Bharsingi had arranged guest lecture on "Green Chemistry" on 28 Feb 2023 for B.Sc final year students . The resource person was Mr., Asst. Professor, Dept.of Chemistry, Sant Gadge Maharaj Mahavidyalaya, Katol, Dist- Nagpur.

Principal, Dr. Prakash Pawar welcomed the special guest for his willingness to share knowledge through guest lecture. In his lecture he enlightened various environmentally friendly methods to synthesize variety of organic as well as inorganic compounds through green method which serve as substitute of conventional harmful methods to reduce pollution. He motivated the students to pursue research in Green Chemistry to save environment for future generation. The lecture began at 1.00 Pm and concluded at 2.30 Pm. All the students of B.Sc attended the lecture very carefully and decided to follow green alternative.

At the end , Dr. Shrikant Thakre, H.O.D. Chemistry , A.D.College, Bharsingi thanked the invited guest for his valuable speech.Dr. Megha R. Raghuvansi, Dr. Avinash Ingole, Mr. Sampat Shingda and Dr. Ram Dongre were also present. The session was concluded by Feedback form.

**REPORT OF GUEST LECTURE**

Name of the Event	Guest Lecture on Vector Space
Date of the Event	28 <sup>th</sup> April 2023
Time of the Event	9.00 am
Resource Person	Mr. Sagar K. Gorle, Assistant Professor Rashtriya Hutatma Arts & Science College, Ashti, Dist. Wardha
Number of Participants	B. Sc. Semester-VI PCM students

**Brief Report:**

The Department of Mathematics, A.D. Mahavidyalaya, Bharsingi under IQAC Cell organized a Guest Lecture for the students of B. Sc. Semester-VI on 28<sup>th</sup> April 2023 on the topic 'Vector Space'. The said lecture is from Mathematics paper-I, who have a vital role in this paper-I to understand the concept matrix of linear transformation, range, rank, kernel and nullity of the transformation.

The resource delivered his lecture through both traditional chalk-dust and ppt presentation methods to help the students to understand the concept. He taught the students from 9.00 am to 11.00 am in the morning session. He elaborates all the main concepts of definition of vector space, theorem for the subspace, union, intersection theorem for to be subspace, span, linearly dependent and independent, generator, basis etc. The students were benefited by his lecture.

For this program, 28 students were taking part in it, and enjoyed his guest lecture. The guest lecture was accomplished due to the support of our Principal sir and IQAC cell.

The welcome and introduction of the guest along with vote of thanks given by Dr Pitambar Gayakwad, Head, Department of Mathematics.

### Outcomes:

1. The students understand by the concept elaborates most of the times vector space concept with set theory, by the resource person.
2. The students get benefitted as per exam point of view also.

**(Session 2022-2023)**

The department of Botany was organized a guest lecture on **28<sup>th</sup> September 2022** on the topic “Photosynthesis in plants with the demonstration on Fermentation Technology” which was delivered by Mr. Suraj V. Kombe, Assistant Professor, Department of Microbiology, Seth Kesarimal Porwal College, Kamptee, Dist- Nagpur. The motto behind the organization of the guest lecture was to aware the students about the topics related to their syllabus and detailed information regarding the Photosynthetic activities in plants. The R.T.M.Nagpur university also included the Fermentation Technology in skill development units in UG Syllabus and therefore the information about the technology with its demonstration through PowerPoint presentation was another side of the lecture. The welcome of the guest was done by offering a floral buckeye. The guest lecture was started with the introduction of guest by Mr. Surendra Sinkar, Assistant Professor, Department of Botany and Dr. S. P. Gudadhe, Head Department of Botany throw a light on the importance of organization of guest lecture for these topics in her presidential speech. In the guest lecture Mr. Suraj V. Kombe clear the concept of students on the topic photosynthesis. They also cleared the doubts on fermentation technology, types, procedure, affecting factors and its significance through his presentation as the exam point of view. The comparing of the program was done by Ms. Manasi Joshi and concluded with the vote of thanks by Dr. Shailesh R. Bansod. He has delivered a very informative lecture and for that the Botany Department is always thankful to him. The other faculty members were also present for lecture.

**Report on Guest Lecture**

The Department of Botany, Arvindbabu Deshmukh Mahavidyalaya, Bharsingi organized a guest lecture on 21 April 2023 on the topic “Agriculture Pollution and Waste Management” which was delivered by Dr. Pravin Kale, Assistant professor, Department of botany, Model college, Karanja (Ghadge), Wardha. The main objective behind this guest lecture was to make the students aware about the topics related to their syllabus and increased agriculture pollution due to conventional methods of farming and how to control it through waste management. The R.T.M.Nagpur University also included some skill based topics in skill development units in UG Syllabus and therefore the information about that with its demonstration through PowerPoint presentation was another side of the lecture. The welcome of the guest was done by offering a floral buckeye. The guest lecture was started with the words of Dr. Smita Gudadhe, Head, Department of Botany. In her speech she focused on the importance of organization of guest lectures on burning issues. Dr. Pravin Kale delivered the informative talk and guided the students with the detailed contents of the said topic and for that the Botany Department is always thankful to him. Dr. Shailesh Bansod and Ms. Manasi Joshi, faculty members of the department took efforts to organize this guest lecture and Mr. Surendra Sinkar concluded the program with his vote of thanks. Through the guest lecture all the students get motivated and benefited with all the contents of the lecture. The other faculty members were also present for lecture.

Brochure of Activity:-

Brief Report:-

The silkworm caterpillar builds its cocoon by producing and surrounding itself with a long, continuous fibre, or filament. Liquid secretions from two large glands within the insect emerge from the spinneret a single exit tube in the head, hardening upon exposure to air and forming twin filaments composed of fibroin a protein material. A second pair of glands secretes sericin, a gummy substance that cements the two

filaments together. Because an emerging moth would break the cocoon filament, the larva is killed in the cocoon by steam or hot air at the chrysalis stage. Department of Zoology conducted a guest lecture of Dr. Lokesh N. Wankade (Model College Karanja) who give valuable knowledge to the students on Endocrine System. It was online. Total 32 students from various departments actively participated in this lecture.

### **Report**

The Department of English, Arvindbabu Deshmukh Mahavidyalaya, Bharsingi organised a guest lecture on "indian approach in learning English language" on 10th March 2023. The chief guest was Mr. Suhas Morey, Assistant Professor, Department of English, SPM Science and Gilani Arts Commerce College Ghatanji, Dist. Yawatmal (M.S.) delivered a lecture on the topic "Indian approach in learning English Language" The event began with invoking the blessings of the Almighty. Dr. Dadarao Upase, head, Department of English welcomed the gathering. The Chairperson of the programme Dr. Prakash

Pawar, Principal, Arvindbabu Deshmukh Mahavidyalay Bharsingi delivered the presidential address, he said in his speech that the English language is very much nessesary in this present scenario to make oneself to face the challenges came along. The chief guest, Professor Suhas Morey addressed the students on how to develop language skills on their own through indian approach. He explained the six steps in the process of writing such as planning, gathering, information, organising, drafting, editing and proofreading. He described in detail about the use of tools for effective writing. The session come to an end with the resources and information for further details.

The session was very interactive and was highly appreciated by the students. At the end many students requested more such sessions. A large no. of students were

participated in this programme. Students asked their queries and were satisfied with the suitable answers by the resource person. Faculty members also participated as well.

Prof. Ashish Kate, Department of English, Arvinbaba Deshmukh Mahavidyalay Bharsingi conducted the programme and Bharati Pathe student from B.Com II proposed a vote of thanks. The programme was concluded by the national anthem.

### Report

Department of English, Arvindbabu Deshmukh Mahavidyalay Bharsingi organised a guest lecture on " Grammar and English Language Skills" on 13/10/2022 in audio visual room in the college. Mr Sidharth Patil, Assistant professor, Rani Lakshmibai Mahila Mahavidyalay, Sawergaon, district, Nagpur was the resource person.

He discussed the topic grammar and language skills through fun filled activities to develop the students confidence level. The students were made to know the importance of communication skills for all types of profession. It also helped the students to build a positive attitude and motivated them to achieve success in life.

It was an enlightning experience and aimed at developing the listening, writing, reading and speaking skills of the students instead of merely providing theoretical knowledge. moreover, the lecture was interactive and informative. Most of the

students asked their queries and they were satisfied with the suitable answers by the speaker. More than hundred students participated and faculties as well.

Dr. Prakash Power, Principle of the college chaired the programme. Dr. Dadarao Upase gave an introductory speech and Mr. Ashish Kate, Department of English, conducted the programme. Mr. Bharat Madavi proposed a vote of thanks. The programme was concluded by the national anthem.

**Brief on Guest lecture :**

Department of Economics organized Guest lecture at 7<sup>th</sup> October, 2022 on the Topic- **Application of Economics Subject in Employment Generation** by Mr. Vishal G. Manohar Assistant Professor, Department of Economics, Mukundrajswami Mahavidyalaya Pachkhedi, Dist. Nagpur. Guest lecture start with key note address by Chairperson of Guest Lecture Dr Rajendra Ghorpade , Head Department of Political Science. Mr. Vijay Rahangdale head

Department of Economics given introduction of Guest and give short brief about topic of guest lecture. Dr. Bhavik Maniyar, head department of Music given outline about Guest Lecture.

Economics is a social science that studies how individuals, firms, governments, and societies allocate scarce resources to satisfy their needs and wants. The principles of economics can be applied to various aspects of the economy, including employment generation. Here are some ways economics can be applied to employment generation:

**Labor Market Analysis:** Economics provides tools and techniques for analyzing the labor market, including supply and demand for labor, wage determination, and factors that affect labor productivity. By understanding the labor market, policymakers can design employment policies that promote job creation and reduce unemployment.

**Investment in Human Capital:** Economics recognizes that education, training, and skill development are critical for enhancing labor productivity and promoting employment. By investing in human capital, governments can improve the skills and employability of their citizens, leading to higher levels of employment.

**Fiscal and Monetary Policies:** Fiscal and monetary policies are tools used by governments to stabilize the economy and promote employment. By adjusting tax rates, government spending, and interest rates, policymakers can influence aggregate demand and promote job creation.

**Entrepreneurship and Innovation:** Economics recognizes the role of entrepreneurship and innovation in job creation. By creating an environment that fosters entrepreneurship and innovation, governments can promote the creation of new firms and industries, leading to job creation.

**International Trade:** Economics recognizes the benefits of international trade for job creation. By promoting trade liberalization and integration, governments can create new employment opportunities in export-oriented industries.

In conclusion, economics provides various concepts, tools, and techniques that can be applied to employment generation. By understanding the labor market, investing in human capital, using fiscal and monetary policies, promoting entrepreneurship and innovation, and fostering international trade, policymakers can promote job creation and reduce unemployment.

Mr. Vishal G. Manohar given idea about the economics thing of **Application of Economics Subject in Employment Generation** In his lecture he elaborate following point

1. Brief about Economics emerging courses for employment generation.
2. Given in detail knowledge about Indian Economic Services, UPSC, and MPSC & SSC.
3. Explain weightage of economics subject in competitive Exam.

4. Trough question and answer session speaker resolve maximum student's quarries.

At last session was vote of thanks given by Dr.Bhavik Maniyar.

**Brief on Guest lecture :**

Department of Economics organized Guest lecture at 28<sup>th</sup> Feb. 2023 on the Topic:- "Current Environmental Issues". By Dr. Vinod W. Dongarwar, Assistant Professor Department of Economics, C.P. & Berar Education Societies College, Nagpur . Mr. Vijay Rahangdale, Head Department of Economics given introduction of Guest and give short brief about topic of guest lecture. Mr Ikhe Sir, head department of English 12th (Junior) given outline about Guest Lecture. Guest lecture start with key note address by Chairperson of Guest Lecture Mr. Vilash Kale from Department of MCVC.

Dr. Vinod W. Dongarwar given brief as fallow.

There are several environmental issues that are currently affecting the planet. Here are some of the most pressing environmental issues:

**Climate Change:** Climate change is a long-term change in the average weather patterns that have come to define Earth's local, regional and global climates. It is caused by increased levels of greenhouse gases, primarily carbon dioxide, in the atmosphere due to human activities such as burning fossil fuels and deforestation. Climate change is causing rising sea levels, more frequent and severe weather events, and changes in ecosystems.

**Deforestation:** Deforestation is the process of clearing forests for agriculture, livestock, and other purposes. Deforestation leads to soil erosion, loss of biodiversity, and increased greenhouse gas emissions. It is a significant contributor to climate change and threatens the livelihoods of millions of people who depend on forests for their survival.

**Air Pollution:** Air pollution is caused by the release of harmful substances into the atmosphere, such as particulate matter, ozone, and nitrogen oxides. It is a major public health concern and causes respiratory diseases, heart disease, and other illnesses.

**Water Pollution:** Water pollution is caused by the release of harmful substances into water bodies, such as rivers, lakes, and oceans. It can be caused by industrial waste, agricultural runoff, and sewage. Water pollution can harm aquatic life and make water unsafe for human consumption.

**Biodiversity Loss:** Biodiversity loss refers to the declining number and variety of species on Earth. It is caused by habitat destruction, climate change, pollution, and overexploitation of natural resources. Biodiversity loss threatens the stability of ecosystems and has implications for human health and well-being.

**Waste Management:** Waste management is the process of collecting, transporting, processing, and disposing of waste. Poor waste management practices, such as open dumping and burning, contribute to air and water pollution and threaten public health.

In conclusion, these environmental issues are interrelated and require urgent action to protect the planet and ensure the well-being of current and future generations. It is essential to take measures to mitigate the impacts of climate change, reduce pollution, protect ecosystems, and promote sustainable development.

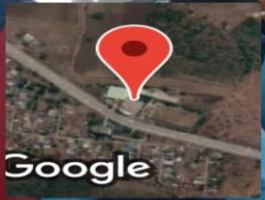

At last session was vote of thanks given by Pratiksha Katole a B.A final Year student.
