

**VSPM Academy of Higher Education**  
**Arvindbabu Deshmukh Mahavidyalaya, Bharsingi**  
**Academic session 2022-2023**

**Best Practices**

**Practice 1:-Environmental awareness through Eco-club**

**Goal:-**To make our environment more sustainable is a need in today's situation. Youth in college should know the importance of environment and they must work to make it more sustainable. For this they must be aware about the importance of environment and what effort should be taken to make it sustainable. College formed Eco-club, through which different environmental awareness activities are conducted so that students get aware about the environment in which they are living and how they can make it sustainable for themselves and others.

**Objectives of the practices:**

- To conduct different environment related activities on different specific days.
- To conduct guest lectures, workshops, quizzes, awareness program related to environment.
- To make the students aware regarding environment related problems and how to work on them.
- To develop interest in students to work on making environment sustainable.
- To make them aware of the possible hazards in the future if they do not care about the environment.

**Context:-**During the year college formed Eco-club in college and it was decided that to conduct the different environment based activities on occasions of different environment related days. So during the year on different occasions through different activities such as guest lectures, workshops, quizzes, awareness program we tried to make the students aware regarding environment.

**The Practice:-** During the year we conducted different environment based activities through Eco-club.

- World environment day quiz
- Eco-friendly rakhi making workshop
- Seed ball preparation drive
- Workshop on making Eco-friendly Ganesha
- State level poster competition on occasion of science day
- Guest lecture on socio-economic vulnerability assessment of climate change
- Guest lecture on occasion of world earth day
- Intercollegiate quiz competition on occasion of energy conservation day
- Workshop on making eco-friendly holi colors
- Tree plantation week
- Water for bird activity
- Workshop on making Eco-friendly diya
- Intercollegiate quiz competition on World ozone day
- World water day rally in Inderwada village and quiz competition

#### **Evidence of Success:**

- Every department successfully conducted allotted activity during that year
- All the activity having their own importance related to environment.
- Students and faculty member show their active participation in each activity
- Students get the knowledge how important to secure our environment
- Students look forward with all the knowledge they get for making making environment sustainable.

#### **Problem Encountered**

- Extra time needed to conduct such activity
- Disturbance in regular academic schedule

#### **Limitations:**

- Extra time needed so not possible to explore these activity at large level.
- Students participation depend on their interest

## **Practice 02:- Importance of competitive examination lecture series and career counselling**

**Goal:-** As the college is in rural area students having less opportunity to explore themselves due to the lack of proper guidance, financial situation etc. Competitive examination is best opportunity for them to make their future bright. So we want to make them aware regarding importance and future in competitive examination.

**Context:-**In today's situation competitive examination is the best way to make the future secure and bright. Competitive examination give each and every one equal opportunity to show their strength and get benefited from that. In rural area students are not aware of this practice so it's our duty to make them aware of it. So during the year competitive examination cell run the lecture series on importance of competitive examination.

**The Practice:-**During the year different expert guests are invited from different areas who share the knowledge, experience and importance of competitive examinations. Following lectures are conducted during the year.

- Lecture 1 by Manoj Choudhry PI Jalakheda & Shri. Shashikant Shinde  
Nagpur Division Coordinator, Maharashtra Gyan Mahamandal Pune
- Lecture 2 by Mr. B. B. Madavi convener of cell talk on career katta by Maharashtra Government
- Lecture 3 by Sudip Meshram, Dept of Geography Vasantrao Naik Govt. Institute of Arts and Social Science College, Nagpur
- Lecture 4 by Mr. Vijay Rahangdale Assistant Professor, Dept of Economics Arvindbabu Deshmukh Mahavidyalaya
- Lecture 5 Mr. Pravin Vasu , Assistant Professor, Dept of Library, Arvindbabu Deshmukh Mahavidyalaya
- Lecture 6 by Dr. Rajendre Ghorpade, Assistant Professor, Dept of Pol. Sci, Arvindbabu Deshmukh Mahavidyalaya
- Lecture 7 by Dr. Pitambar Gayakwad, Assistant Professor, Dept of Mathematics Arvindbabu Deshmukh Mahavidyalaya
- Lecture 8 by Vedprakash Borkar, National Sanskrit University Tirupati
- Lecture 9 by Dr. Atul Charade, Management studies Katol

### **Evidence of Success:**

- All the events are conducted successfully and students found satisfied with knowledge they received.
- Students started to work in the direction of competitive examination career.

### **Problem Encountered**

- Many guest are conducted the lecture in online mode as they cannot afford to come to college
- Extra expenditure required to conduct such event so not possible to arrange so many activities.
- It also disturb the regular academic schedule of students

### **Limitations:**

- Extra expenditure required to conduct such event so not possible to arrange so many activities.
